

naturhusvillan
Sustainable living in a Mediterranean climate

Naturhusvillan extends your summer and enables sustainable living in a luxury garden.

 naturhusvillan

Naturhusvillan aims for minimal environmental footprint. Inspires through possibility. All our houses are fitted with reliable energy efficient solutions, ecological materials, protective climate shells, automatic irrigation and ecocycle-systems giving back nutrients from wastewater to the in-house garden plants.

Naturhusvillans core living house with a surrounding climate shell gives optimal weather protection and provides Mediterranean-style gardening possibilities.

n-min
